

Having broken my computer, I asked Gareth from Halchax IT solutions to help.

Not only did he give me several options, he supplied me with a completely new system and transferred all my data over from the old one, in a very short time and at an amazing price.

Gareth explained the new system to me without getting too technical and never made me feel foolish, even taking calls on a Sunday.

Gareth not only got me up and running again without fuss, I received world class customer service.

Halchax IT solutions are so easy to do business with, that I have no hesitation in recommending them to anyone wanting to upgrade their systems and as far as I'm concerned they are the go to people.
