How-Chan Hoh
Halchax IT Solutions

19th August 2015

Dear How-Chan,

I would just like to thank you for your professional attitude and work ethic. We had decided to migrate to O365 from our old exchange server and contacted Halchax IT Solutions for assistance in migrating.

How-Chan initially came to site and we discussed what was needed for the migration to go smoothly. A proposal was sent out detailing what we needed to complete before work began. This helped us immensely in our preparation for migrating.

How-Chan arrived on the agreed date and got straight to work on migrating all the users. As a School we have over 1000 users and any problems that How-Chan came across were dealt with quickly. How-Chan would also explain exactly what he was doing and had no hesitation in sharing his abundant knowledge. The migration went smoothly and without any issues.

How-Chan is readily available to answer any of my queries, not just regarding O365. Our School is now happily using O365.

I would have no hesitation in recommending Halchax IT solutions. We will certainly be using them for our future IT projects.

Yours faithfully,

David Norris
Network Manager
The Martin High School
