Dear Gareth

I would like to take this opportunity to thank you for your continued hard work with our clients. We have known of Halchax IT Solutions for about 3 years now since How Chan joined BNI. Since then our understanding of your business has grown immensely.

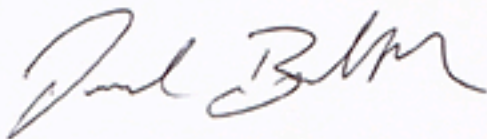

You have enabled Quick by Design to provide a more efficient service to our clients by working closely with us to achieve a common goal.

It has been difficult in the past to find other companies who work with similar morals and approaches, which has previously limited the development of some of the work we have produced in particular with email.

Since we began to work together your skills and knowledge have complimented the service provided by Quick by Design, enhancing the overall customer experience and final product. Our two companies working together has clearly been of great value to our customers, as for many of them technology is a challenging area. Therefore having their website and IT working well in unison gives them great confidence and reassurance, which enables them to focus on other parts of their business.

I look forward to working with you further on other projects and will continue to offer your services to new and existing customers.

Yours sincerely,

Dan Bullock
